Excel Property Management Web Ledger – Phase 1 Gantt Schedule (Weeks 1–12)

Select a period to highlight at right. A legend describing the charting follows.

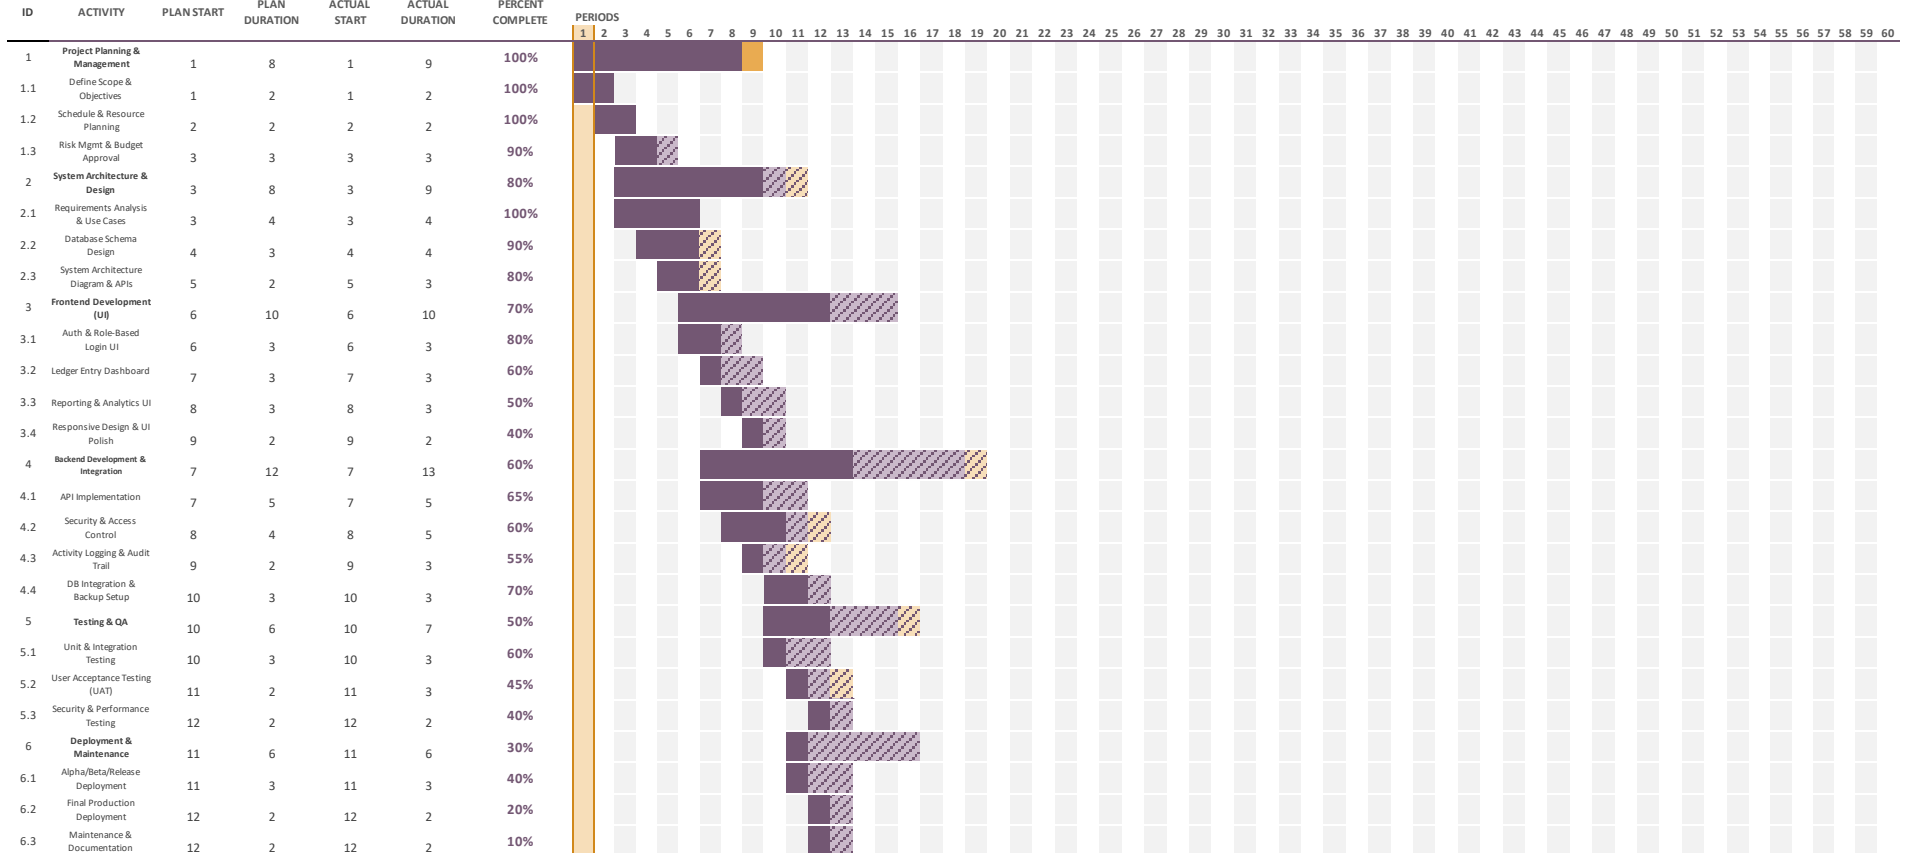

Period Highlight: 1

 Plan Duration Actual Start

■ % Complete

 Actual (beyond plan)

■ % Complete (beyond plan)

Assumptions & Dependencies:

Phase 1 spans 12 weeks (Periods 1–60) with a core team of one Project Manager, Frontend, Backend, Database Engineer, and QA Engineer. Durations are normalized to weekly periods for clarity. Dependencies follow a Finish-to-Start sequence: Planning → Design → Frontend + Backend → Testing → Deployment → Documentation. Actual durations reflect minor variances to simulate realistic progress; furthermore, Percent complete values are illustrative estimates used to show logical progress flow.
